## **SYNERGY BAGS 'BEST ENGINEERING FIRM OF THE YEAR' AWARD AT GIREM**

**Bangalore, India September 28, 2010:**

**Synergy Property Development Services**, a leading Project Management Company announced that they have been conferred with the '**Best Engineering firm of the Year**' award for the second consecutive year at GIREM, the flagship Urban Planning and Real Estate Leadership Summit, held at Zuri White Sands, Goa. The three-day real estate summit discussed on issues of urban development and sustainability with focus on the real estate sector.

The awards assessment procedure was based on various parameters set by Ernst & Young, who reviewed and verified the entire processes of the Awards. The jury allocated scores to each of the nominees based on point system.

The awards jury comprised **Mr. Anuj Puri**, Chairman & Country Head - Jones Lang LaSalle; **Mr. V. Hari Krishna**, Director - Investments, Kotak Realty; **Mr. Sumeet Anand**, VP, Head Corporate Real Estate, India, Pakistan and Bangladesh - J.P. Morgan and **Mr. Santosh Martin**, CEO - Divyasree Developers Pvt Ltd.

**Mr. Sankey Prasad, Chairman and Managing Director – Synergy Property Development Services said**, "We are extremely delighted to have received this award from such a coveted platform as GIREM. Receiving the award for the best engineering firm is indeed a matter of pride for us. Such appreciation fuels our endeavor to strive towards becoming one of the best organizations and continuously better our performance and create a recall value in the minds of our customers."

### **About Synergy Property Development Services:**

Synergy is a project management company, offers complete project management, delivery support and design services through all phases of the development process. It provides a single-point-contact and helps strategize to minimize risk and ensure safety. Established in 2003, Synergy has been the launching platform for a group of engineering and architectural entrepreneurs with diverse experience in India and abroad. Synergy has **a strong team of over 600 people**, with its resource pool including talented architects, engineers and project management personnel. The Company has a pan India presence with overseas offices in Malaysia and in the UAE. Till date, they have delivered over 80 million sft of development in India and Malaysia. Synergy specializes in

retail malls, IT parks/SEZs, large campuses, hotels, hospitals, premium residential and mixed-use developments.

Synergy's strength is the ability to deliver buildings to international standards, within the cardinal parameters of cost, quality and schedule. Synergy's project management processes are supported by innovative, hands-on delivery procedures, including a new online Management Information System(MIS), custom made for Synergy by IBM which for greater transparency is accessible by the respective clients too.
